Historic Barn

Heber Valley is ripe with barns of many sizes and shapes, most of which date back several decades. One of the most spectacular is this barn near the entrance to the Chalet at the north end of Deer Creek Reservoir.

Tate Barn To Be Restored

12-3-97

Midway joined hundreds of other communities across the country actively ensuring that America's architectural and cultural heritage is preserved when Utah State Parks and Recreation Fund Raising Coordinator Nancy Devenport accepted a \$2,000 grant from the National Trust for Historic Preservation for the Tate Barn project.

A group of individuals will raise funds to join with the National Trust grant in order to eventually rebuild the Tate Barn.

The barn was built about 1900 for Francis Tate and is eligible for listing on the National Register of Historic Places.
